## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-33 and 35-46 are allowed (renumbered as 1-45).
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, in the claimed combination, a system comprising:

a receptor member having one or more light-receiving members, each light receiving member capable of generating a respective electrical signal in response to light incident on said light-receiving member, said receptor member detachably connectable to a light-emitting member that indicates the existence of an event by emitting a light signal associated with the events;

a processor operatively connected to said receptor member so as to receive said respective electrical signals from said receptor member, said processor being user-programmable to associate said event with said light signal, said processor operatively connected to an audio member capable of emitting an audio signal associated with said event; and

the user-programmable microprocessor being capable of causing said audio member to emit said audio signal when said receptor member is connected to said light emitting member and said light emitting member emits said light signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
